MEMORANDUM FOR : SSA - DD/s

SUBJECT : Storage of Household Effects

25X1

[Redacted]

25X1A9A

25X1A6A

2. Mr. [Redacted] approximately two (2) years ago, has stated that it is virtually impossible to locate unfurnished quarters and because of this factor, he has no use for the majority of his household effects in [Redacted] on this assignment. However, because of the continual problem of payment of storage in the United States, Mr. [Redacted] is planning to take all of his household effects on this assignment at a cost to the U.S. Government of approximately \$3850.00. This cost is based upon 10,000 pounds of effects packed for export.

25X1A9A

3. If his effects were stored in the United States at government expense the price would not exceed \$679.50 for the two year period. This cost is based upon storage of 4500 pounds of effects unpacked. Mr. [Redacted] would like to ship a nominal amount of effects, approximately 1500 pounds, at a total cost of \$783.50. The total cost to the U.S. Government for both the aforementioned storage and shipping being \$1460.00. The saving to the U.S. Government under this arrangement would be approximately \$2387.00.

25X1A9A

4. Based on the resultant saving to the government as outlined in Paragraph 3 above, it seems only logical that authority be granted to pay for the storage of his effects in the United States.
